FEDERAL LABOR BOARD GRANTS A WAGE INCREASE OF \$600,000,000 TO AMERICAN RAILWAY WORKERS

Brotherhoods Not Satisfied
With Decision As It Does
Not Equal Their Original
Demands

They Decide, However, to
Accept Tentatively While
Passing the Buck to Local
Unions

Possibility of Strike is at
Least Temporarily Averted
Pending Result of Ref-
erendum

CHICAGO, July 20.—Wage in-
creases totaling \$600,000,000 were
granted to the 1,800,000 railroad em-
ployees of the United States in the
decision of the federal labor board on
the recent demands of the "big four"
brotherhoods and associated crafts.

While the award was not entirely
satisfactory to the brotherhoods it
was understood that it was sufficiently
large to be accepted tentatively by
their chiefs and submitted to a refer-
endum of the men. Their decision to
await the action by the individual uni-
ons, ended the possibility of an im-
mediate strike. "The roads will ac-
cept and advise the award," said a
representative of the railroads. B. M.
Jewell represented the union brother-
hoods. He made no comment on the
award but indicated that it would be
submitted to a referendum.

Chairman R. M. Barton presented
the board's decision. The award was
made by groups, each classification re-
ceiving a set increase per hour, or in
the case of engine and train employees,
per mile.

Men acquainted with the situation
saw reason to hope that the labor
board's finding would be accepted in
total by the men, inasmuch as the de-
cision of the board to submit the
awards to referendum followed a
careful consideration of the wage in-
creases based on advance information.
Their action in accepting the board's
decision, even tentatively, it was said,
was to be taken as a sign that they
would urge its adoption by the men.

RATES OF INCREASE

CHICAGO, July 20.—In an award
handed down today by the U. S. rail
labor board, estimated in the aggre-
gate at \$600,000,000 the following rates
of increase per hour were established
for the various classes as enumerated
below:

Sec. 1. Storekeepers, assistant
storekeepers, chief clerks, foremen,
sub-foremen, and other clerical su-
pervisory forces—13 cents.

Sec. 2. Clerks with an experience
of one (1) or more years in railroad
clerical work, or clerical work of a
similar nature in other industries, or
where their cumulative experience in
such clerical work is not less than one
(1) year—13 cents.

Sec. 3. Clerks whose experience as
above defined is less than one (1)
year, and until an experience of one
(1) year in such work entitles them
to the increase provided for in Sec.
2—6½ cents.

Sec. 4. Train and engine crew call-
ers, assistant station masters, train

TURKS HAVE FOUR WARS IN PROGRESS

PARIS, July 20.—Four separate
theaters of war exist today within the
borders of the old Turkish empire as a
result of the invasion of Armenia by
the eleventh soviet army.

The other three zones of hostilities
are: Anatolia, where the Greeks are
driving back the Turkish nationalists;
Syria, where the Arab forces of King
Faisal are opposing the French, and
Thrace, where the Turks are carrying
on guerrilla warfare against the
Greeks.

A British army assisted by war-
ships is protecting Constantinople and
the eastern shore of the Sea of Mar-
mara.

Advices from the east indicate that
the soviet army which has crossed
into Armenia near the Aras river may
attempt to form a junction with Mus-
tapha Kemal Pasha's Turkish national
army. The Bulgarians are assuming
a threatening attitude towards the
Greeks in northern Thrace.

NEWCOMERS BRIDGE IS TO BE REFLOORED

Announcement has been made that
the Newcomers bridge will be
closed for repairs each day from 7
o'clock in the morning until 6 in the
evening, compelling a detour to New-
comers town by way of Low Gap.

The bridge will, however, be open
for travel each night until the work is
finished. A new floor is being laid by
the contractors in charge.

CITY COUNCIL TO MEET COMMITTEE ON MAINTENANCE

The City council together with the
civic committee of the Oak Ridge cem-
etery will meet this evening at the
City hall at 7:30. The purpose of the
meeting is to plan to raise the amount
of \$1950 from the different lot own-
ers of the cemetery to keep the cem-
etery in first class condition. It is said
that the cemetery needs to be taken
care of and cleaned up. The civic
committee requests all the lot owners
to be present for the meeting. Funds
will probably be taken at the meeting
tonight.

WILL OF SARAH E. LOWE FILED FOR PROBATE TUESDAY

The will of Sarah E. Lowe, Mill
Creek-tp was filed for probate Tues-
day. It directs that four of her five
children divide the estate equally, and
provides that in no case shall there
be a public sale. She stipulates that
all property must be sold by private
sale in case the four heirs are unable
to satisfactorily divide without sale.
Sanford Lowe is bequeathed only
one dollar, in view of the fact that he
has received his share of the estate.
Mrs. Walter Lowe is named executrix.
The four heirs are Walter Lowe, Cora
Bechtol, Maggie Lowe and Valinda
Lowe. The will was written March
29, 1917.

EXCEPTIONS FILED TO FIRST ACCOUNT OF FREW EXECUTOR

Exceptions to the first account of
the Cleveland Trust Co., executor of
the estate of Eliza V. Frew have been
filed in probate court by John R.
Frew, sole heir. Frew avers among
other things that there is a discrep-
ancy in the executor's account of total
receipts. He cites the total of \$6,
287.71 on the first page of the ac-
count and the total of \$6,825 on page
eight of the report. He declares that
the receipts were, in fact, \$7,071.52.

FIRE CHIEF TAKES ISSUE WITH CRITIC

That the "municipal government
attache" who declared the lower sta-
tion of the city fire department is of
no value to the city was either misin-
formed or maliciously falsified was
the statement of Fire Chief James
Tracewell Tuesday.

The upper station answers all calls
and the lower station does not send
in a call from the scene of the fire,
the chief said. The lower station
answers calls from above the railroad
only upon second call.

"This informant should remember
that the fire department is operating
with an insufficient personnel, not at
the suggestion of the department of-
ficials," the chief said. "We suffer
enough from various causes without
being placed in a false light," he ad-
ded.

RECORD RAINFALL FOR THIS SEASON

During the hard rain, according to
Mrs. Ada Jeffries, Bridge-st, the lo-
cal weather observer, the amount of
rain that fell within a short time Sun-
day was registered at 1.68 of an inch.
The total rain fall during the evening
was 1.84 of an inch. This report shows
that the rain fall for last night
surpasses all rain fall records of the
month.

Divorce Granted

A divorce was granted Clarence H.
Norman, West Lafayette, from Anna
Neil Norman Monday in common pleas

This photograph, taken a few days ago in the national capital, shows the Democratic vice presidential nominee in a pose which will become familiar in this country before the end of the campaign. Roosevelt expects to resign his office as assistant secretary of the navy soon and make a speaking tour of the country.

Snipes, That's All

SPRINGFIELD, Ill., July 20.—A
park policeman saw four young wom-
en and a young man "prowling"
among some shrubbery in a local park.
The quintet held a burlap sack. Sus-
picious, the policeman arrested all five.
On convincing the Court that they
were "shooting cigarette snipes" the
five were released.

MRS. MINA STEWART TALKS TO ROTARIANS

Mina Finlay Stewart, who served as
a teacher in the public schools of
Japan for nearly three years, gave an
interesting talk at the noonday lunch-
con of the Rotary Club at the Coun-
try Club Tuesday noon. Mrs. Finlay
related many interesting events that
happened during her stay in Japan,
and told of customs and life of the
Japanese.

Monday, July 26, the New Philadel-
phia Rotarians will entertain the Co-
shocton club at Tuscora Park, and the
local club expects to send a big dele-
gation.

PRINCE JOACHIM IS BURIED PRIVATELY

BERLIN, July 20.—Private funeral
services were conducted today for
Prince Joachim, youngest son of the
ex-Kaiser, who committed suicide last
Saturday morning. Four of the brothers
of the dead prince were present
but not the Kaiser, the ex-Kaiserin
nor the former Crown Prince who are
in Holland.

It is said that the former empress
has not yet been told of the death of
her favorite son because of the criti-
cal condition of her health. Members
of the old court profess ignorance of
the whereabouts of Joachim's wife,
from whom he was recently divorced.
She did not attend the funeral.

THIEVES RANSACK M'CULLOUGH HOME

While Mr. and Mrs. Ross McCul-
lough and family of Crooked Run,
were in Coshocton Sunday afternoon,
burglars ransacked their home and
stole many valuables. When the fam-
ily arrived home late that afternoon
they found that two penny banks be-
longing to his two children, a suit of
clothes and a bank book with \$50 regis-
tered in it had been taken. After a
complete search over the house it was
discovered that nothing else had been
molested.

TAXPAYERS RUSH TO GET UNDER THE WIRE

Tardy taxpayers were hustling to
get under the wire Tuesday, the last
day when will be received at the
county treasurer's office without the
addition of the regular penalty for
delinquency. Almost all the taxes
have been paid, and it is believed the
delinquents will be fewer this month
than in January.

MRS. C. B. HUNT GETS WORD OF BROTHER'S DEATH

Mrs. C. B. Hunt, 822 Main-st., has
received word of the death of her
brother, E. C. Rowley, formerly of
Coshocton. Mr. Rowley's death occur-
ed Saturday in Rockwood, Pa.
Funeral services were conducted
Monday and burial was made at High-
wood cemetery, Pittsburgh, Pa. De-
tails concerning the death were not
stated in the message received by
Mrs. Hunt.

HARRY DALY DIES IN PHILADELPHIA

Mrs. Jay Tompkins of north Eight-
st received word Tuesday morning of
the death of Harry Daly, aged 50,
of Coshocton, who died at his home in
Philadelphia, Pa., July 11. He died
following a two-weeks illness.

Mr. Daly formerly conducted a gro-
cery store where the Mrs. Elizabeth
Powelson grocery store is now located.
He also was employed at the
Glass factory here as a glass blower.
He lived in this city for several years
and gained for him many close friends.
Mr. Daly was a member of the local
Catholic church.

He was buried at Philadelphia, Pa.

ANDREW DENNY IS HURT BY PLANE

Andrew Denny, 225 west Chestnut-
st, was badly cut Tuesday morning
when he was struck by a flying knife
blade from a plane in the E. C. Gleason
company, 1247 east Main-st. The
blade of the plane was loose and it
struck Denny in the upper part of the
chest near the collar bone. The blade
cut a gash about four inches in length
in Denny's chest.

Following the accident, he was taken
to Dr. J. D. Lower's office where
the wound was dressed. The injury
is not serious.

DURAND SUES FOR ATTORNEY'S FEES

A jury trial will be held Saturday
afternoon in Justice R. B. McDer-
mott's court in the case of C. Homer
Dupard, plaintiff against John Klein-
knecht, defendant, the former asking
judgment for the sum of \$72.50 from
the defendant for his services and for
various and sundry trips he made to
Columbus in behalf of the defendant
some time ago.

The jury will be composed of L. E.
Tyler, Lewis McClain, David Mark-
ley, Lawrence Parrish, Hugh Gam-
ble and W. S. Barnes.

DOUBT LINGERS AS TO WHO FIRED FATAL SHOTS IN DAWSON-ZELLARS DOUBLE TRAGEDY; AUTOPSY REVEALS ADDITIONAL UNEXPLAINED CONDITIONS

DR. CRISWELL IS COM. OF HEALTH IN THIS COUNTY

A meeting was held at the Court
House, Saturday, of the District
Board of Health organized under the
Griswold Act, the new health law.
Harry Sicker, President of the Board,
was unable to attend and Dr. Nathan
Hammond of Plainfield acted as pres-
ident. Dr. E. U. Marquand of Cones-
ville and Dr. J. E. Hahn of Warsaw
attended. Jesse Kinner of Plainfield
was elected a member of this board,
there being a vacancy existing at this
time.

Dr. D. M. Criswell was elected Dis-
trict Health Commissioner of Coshocton
County for the balance of this
year. His headquarters for the pres-
ent will be at Plainfield.

A budget for the ensuing year was
compiled by the board and certified
to the auditor as required by law.

A program for future use of this
organization was gone into and its
progress and accomplishments are to
be demonstrated without any further
delay. Most of the counties have
been organized and in operation since
the early part of the year. Coshocton
County has been delayed on account
of an attempt to form a union of the
city of Coshocton and the rest of the
county in health work. It was decided
to try that such a procedure is hard-
ly feasible as yet.

Dr. Thornburg, a supervisor of the
state department of health, who was
present at this meeting has assured
the local organization of a complete
cooperation of his department with
the local board.

It is hoped that a public health
nurse may be obtained and put in the
field early in the fall for school work.
It is known that 25 to 30 per cent of
school children in the rural districts
are deficient in one way or another
and a thorough inspection and correction
of the many defects is being accom-
plished throughout the state as will be
in this county.

RUSSIANS MOVE ON POLISH POSITIONS

BERLIN, July 20.—The Bolshevik
army on the northern end of the Rus-
so-Polish battlefield is advancing at
the rate of 12 to 15 miles a day accord-
ing to press dispatches from Warsaw
today.

Using Minsk as a base of operations
the Russians are making storm at-
tacks against the Polish positions de-
fending Novogrudak, Baranovitsch
and the Oginski canal. On the south-
ern end of the front the Russians are
reported to have captured Kamenetz
Podolski. Novogrudok is 80 miles east
of the Fortress of Grodno. Barano-
vitsch is an important railway city,
five lines converging there. Kamenetz
Podolski is in old Russia only 10
miles from the pre-war border of Gal-
icia.

UNIQUE COLLECTION OF COINS IS FOUND IN A STRAWBERRY PATCH

DOVER, July 20.—What is believed
to be the most valuable collection of
old coins in Tuscarawas-co is owned
by E. L. Patterson, farmer, residing
two miles east of Gnadenhutten.

Mr. Patterson found them about a
year ago while working in his straw-
berry patch. While turning over a
spade of earth, he noticed a coin.
After cleaning it up, he found it to be
of ancient date. His curiosity aroused
Patterson continued to sift the earth
within a radius of five feet and found
numerous others.

Many small particles of brick were
found mixed in the dirt, apparently
from an old building. On account of
the rarity of the coins it is possible
they were hidden in a chimney by

SHAMROCK LEADS IN TODAY'S RACE, WITH LIKELIHOOD OF BOTH LOSING

OFF SANDY HOOK, N. J., July 20.
—At 2:15 today with the race half

steadily ahead while the Resolute was
rolling about and making poor time.

At 2:25 however the wind died down
again and both yachts were perfectly
stationary. Nothing short of a stiff
breeze now can bring them in within
the six hour limit, it would seem.

MOORE REFUSES CHAIRMANSHIP NATIONAL COM.

COLUMBUS, July 20.—Ed. H. Moore
of Youngstown this afternoon definite-
ly refused to accept the chairmanship
of the Democratic national committee.
Governor Cox announced following a
two hour conference in which the gov-
ernor unsuccessfully tried to induce
Moore to accept the post.

The committee met late this after-
noon and appointed a sub-committee
to confer with Governor Cox and Vice
Presidential Candidate Roosevelt on
the selection of new officers for the
national committee and to report back
to the full committee at 4:00 o'clock.

RUTH DRIVES OUT HIS THIRTY-SECOND HOME RUN OF YEAR

POLO GROUNDS, N. Y., July 20.—
Babe Ruth, the king swatsman, estab-
lished a new major league home run
record in today's game against
the White Sox by slamming out an-

THE AUTOPSY REVEALS ADDITIONAL UNEXPLAINED CONDITIONS

The bodies of Charles Zellars and
Mrs. Minnie Dawson, victims of the
double shooting at the latter's home on
north Ninth-st Sunday morning, were
laid to rest Tuesday afternoon at
South Lawn cemetery.

Autopsies had been held on both
bodies Monday afternoon by Coroner
Edmund Cone, Dr. Lister Pomerene
and Dr. J. W. Shaw at the Hanlon and
Glass morgues. No report has been
made by the physicians, who were to be
called together some time Wednes-
day by the coroner for the purpose of
making the report to the county prose-
cutor.

The coroner's inquest will probably
be held Wednesday, following the re-
port of the postmortem. Six or eight
witnesses will be called to give testi-
mony.

It developed Tuesday that the
physicians who performed the autopsy
are not fully convinced that the crime
was committed after the manner out-
lined by the coroner, but there was
no statement forthcoming from the
physicians, who are reticent pending
the report to be submitted probably
Wednesday.

There has been no theory advanced
by the family or the physicians to vie
in plausibility with that offered by
the coroner and Chief Maple, but on
the other hand the theory advanced
by the first officials on the scene is
not complete and does not account for
all the conditions discovered.

When asked if in his opinion the
shots were fired by some person other
than Mrs. Dawson one of the
physicians said: "The thing to do, it
seems to me, is to withhold a positive
opinion and await development. The
nature of the fracture of the woman's
skull may indicate that something
other than the bullet that plowed thru
her brain hit her. Powder markings,
the positions of the bodies, the wom-
an's grip on the revolver and various
other unexplained circumstances
such as the bruise on Zellars' fore-
head and on his knuckles are difficult
of reconciliation with the theory as
advanced, and may tend to indicate
something different."

There was no variance of opinion
among the physicians in the results
produced by the three shots fired into
the two bodies. It was revealed that
the shot that entered Mrs. Dawson's
left breast missed the heart and that
she could have lived for hours after
it had been fired, but it was a ques-
tion whether she could have fired the
second shot in her weakened and
shocked condition.

On the other hand there is no way
in which the theory that Zellars fired
the shots can be explained, in view
of the fact that Zellars died instantly
with a fractured skull and punctured
brain, and could not have placed the
gun in Mrs. Dawson's hand after fir-
ing the shot that killed him.

The only plausible theory, in case
Mrs. Dawson did not do the shooting
is that a third party was involved, and
the circumstantial evidence in the
case tends to refute this argument by
showing that Mrs. Dawson bot the
gun and had Mrs. Noah Deeds, a
neighbor get the shells at the Central
hardware Saturday morning before
the crime. Mrs. Deeds first bot car-
tridges that were of the wrong calibre
and was sent back with the cylinder
of the revolver to get them "fitted."

Officials today were running down
every clue that would tend to throw
light on the circumstances leading up
to the crime. The coroner's inquest has
been postponed until Wednesday, and
possibly later, in order that every fact
may be learned. The Dawson and
Frelague families take the position
that they want to accuse no one nor
shield anyone, but that the facts must
be brot out and explained in an ac-
ceptable manner.

The autopsy showed that the skulls
of both were fractured, his by the
bullet, but that hers was cracked
across the front, over the top and
along the base, as tho it had been
struck from behind by a blunt instru-
ment besides being shot. There was
no powder mark on her right temple
where she is supposed to have placed
the muzzle of the gun. There was
no powder mark on Zellars. The
only marks were on her left hand and
on her waist where the bullet entered
her breast.

Shortage Of Rice Hits China's Poor

SHANGHAI—(By Mail)—Profiteering has hit the uncounted millions of China's poor, and famine threatens. There is a rice shortage here that has created a condition which may be mildly described as acute. It is really to be described only in the superlative.

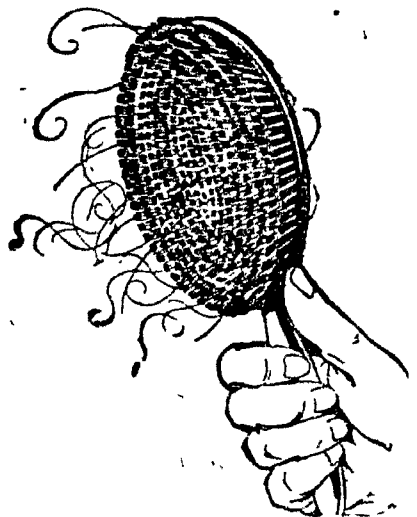

Daily the Settlement's police forces receive word of the discovery of dead bodies of men, women and children, evident victims of starvation, being found by roadsides where they have been left because of families too stricken by poverty to pay for proper burial and trusting to the humanity of the foreign population to conduct the accustomed rites.

Excessive export of rice to Japan is blamed by the Chinese for the hunger of the people in this country. Whether this is true or whether a "corner" exists is what the authorities are attempting to discover.

Short-Sightedness That Increases

Optometrists call such a condition "progressive myopia." Short-sighted school children very often have this error in a progressive form, and any parent who has the slightest reason to think that his child does not see as well or as far as he should, should take immediate steps to have the matter attended to. MODERN MODES NOT IMMODEST, EXPERT CLAIMS

LONDON, July 20.—There is nothing immodest in present-day dresses, the principal of a well-known dress-making establishment declares to the Globe.

"Fashions today," he said, "judged by present-day standards are no more immodest than were those of any other age, when judged by the standards of that age."

"It is very seldom," he continued, "that the same creation will suit two women. A dress worn by one person might not evoke the slightest thought of impropriety, while if worn by another it would immediately become suggestive."

"Perhaps the churchmen who have been attaching styles have come across people who did not wear dresses particularly suited to their style of beauty, and the minds of these men, instinctively realizing that something was wrong, but at the same time not understanding what it was, immediately concluded that the dresses were immodest."

"Again," the designer added, "if a woman is endowed with a perfect pair of shoulders and arms, why should she hide them or try to improve upon the work of nature with man's artificial substitutes?"

Realizing that there was perhaps another than the artistic side to the question, the Globe representative turned to the commercial aspect of the dress-making business.

The manager interviewed here, however, was only able wisely to say that "women of to-day must want the short dress and the bare back, otherwise how would it be possible to sell such fashions?"

"Everybody," he declared, "has a distaste for something or other. Personally, I never smoke, and I dislike seeing women smoke their after-dinner cigarette."

"I know, however, that if a woman wants anything all the protests in the world will not stop her from having it, and it is only our duty to anticipate her wishes in the matter of clothing."

"Woman wants the type of dress which has been called immodest, though in reality it is only so when judged by the standards of another generation."

Saved His Wife

BUYRUS, July 20.—Fred Converse prevented his wife from being horribly burned. Dropping the razor with which he was shaving, he rushed to the back of the yard and rescued his wife. Her dress had caught fire from a pile of burning trash. When the razor fell, Converse' left hand was horribly cut.

REPUBLICANS THINK THEY HAVE CORNERED COX AS A RESULT OF HIS TALK WITH PRES.

WASHINGTON, July 20.—The pledge given by Governor Cox to carry out President Wilson's league of nations policy, if elected to the presidency, excited a variety of comment today among Democratic leaders here.

Senator Hitchcock, who led the fight for the treaty in the senate, was thoroughly pleased with the governor's statement. He believes that it will mean the prompt ratification of the treaty if Cox wins and that such reservations as need to be adopted to insure ratification will not be of a "nullifying" character.

Just before leaving for Atlantic City this afternoon, Senator Hitchcock expressed the opinion that the promise given to the president by Cox will insure the support of all the administration following for the Cox-Roosevelt ticket.

Carry on Wilson Policies
Officials in the departments also expressed satisfaction upon learning that Cox intended to "carry on" the policies of the Wilson administration. It is indicated that the heads of several departments will get into the campaign actively.

It was conceded by administration supporters that the unqualified promise given by Cox to the president undoubtedly will bring considerable chagrin and disappointment to those who worked for Cox in the San Francisco convention on the theory that he would be an "anti-Wilson" candidate. There are in the city at present several prominent men in the party who supported Cox with this end in view.

Senator David I. Walsh of Massachusetts declined to make any comment on the position taken by Cox in his interview with the president, except to say he had heard a number of prominent Democrats express surprise that Cox had gone so far in placing himself behind the president's league policy.

Among Republican leaders the opinion was freely expressed that Cox has clarified the issue and that from now on he will be forced to take the defensive on all questions connected with the president's international policy. Republicans generally believe that the drawing of the issue along these lines will be to Harding's advantage.

RUTH HITS TWO HOMERS; KERR IS LATEST VICTIM

NEW YORK, July 20.—Babe Ruth broke the world's record for home runs, established by himself last year, not once, but twice, at the Polo grounds yesterday.

The Colossus of Swat drove one home run into the right field bleachers in the fourth inning of the second game between the New York Yankees and the Chicago White Sox. This made 20 for the season, passing the record of 19 which Ruth made last year.

In the ninth inning he drove another homer into the right field grand stand, making it 31, with the season still two months to go.

There were 26,000 in the Polo grounds waiting for the detonation that would mean the breaking of the record. They waited in vain thru the first game of the double-header. They were waiting for the breaking of the world's record, so that they could say that they were there when Ruth swung and bid the achievements of the Ansons, the Delahantys, the Brothers, the Freemans and all the others further in the dim mists.

Little Dick Kerr, the left-hander, who saved the Chicago White Sox from an utter rout in the last world's series, was the pitcher. The first time that Ruth came to bat in the second game, he drew a base on balls and the crowd growled.

Ruth came up in the fourth, following Pipp, the Yankee first baseman. He slouched along, swinging an extra bat or two. Pipp had sent a hit into left field and the Yankees were behind by one run. This time Kerr shot a ball within reach of Ruth and the Colossus of Swat swung.

At the crack of the bat against the ball, the watchers sprang to their feet. There, usually is no doubt when Ruth hits a home run and there was no doubt about it this time. The ball traveled high towards the right field bleachers and struck a few tiers back from the edge.

The second record-breaker was a repetition of the first.

Stolen Car Identified

MARTINS FERRY, July 20.—A touring car found by police here, May 10, has been identified and returned to its owner. It is the property of G. H. Baldwin, of Rochester, Pa., judge of the Beaver-co. Pa., common pleas court. The police learned it was stolen from in front of a church on May 7.

Accused; Drops Dead

DECATUR, Ill., July 20.—Peter Athens, twenty-six years old, confectioner, fell dead in his store while listening to a United States Marshal reading a warrant telling of his indictment for alleged receipt of goods said to have been stolen from a train carrying interstate commerce.

Firestone Cushion Truck Tires

Many truck tire problems in many lines of business are answered by Firestone Cushion Tires.

They have added cushioning power needed for proper protection to your load and truck. They have the wearing strength needed for maximum mileage.

12% to 27% More Rubber

Firestone Cushion Tires have a greater volume of material. That is one reason why they ride easier. It is obvious, too, that this means longer wear. The extra wide tread provides approximately 20% more area of road contact—giving firmer traction under all conditions.

300% More Efficient in Heat Radiation

Overheating is a common danger to truck tire equipment. But Firestone engineers have evolved this special Cushion shape that lessens the strain through a different flexing of the rubber and gives a greater surface for heat radiation.

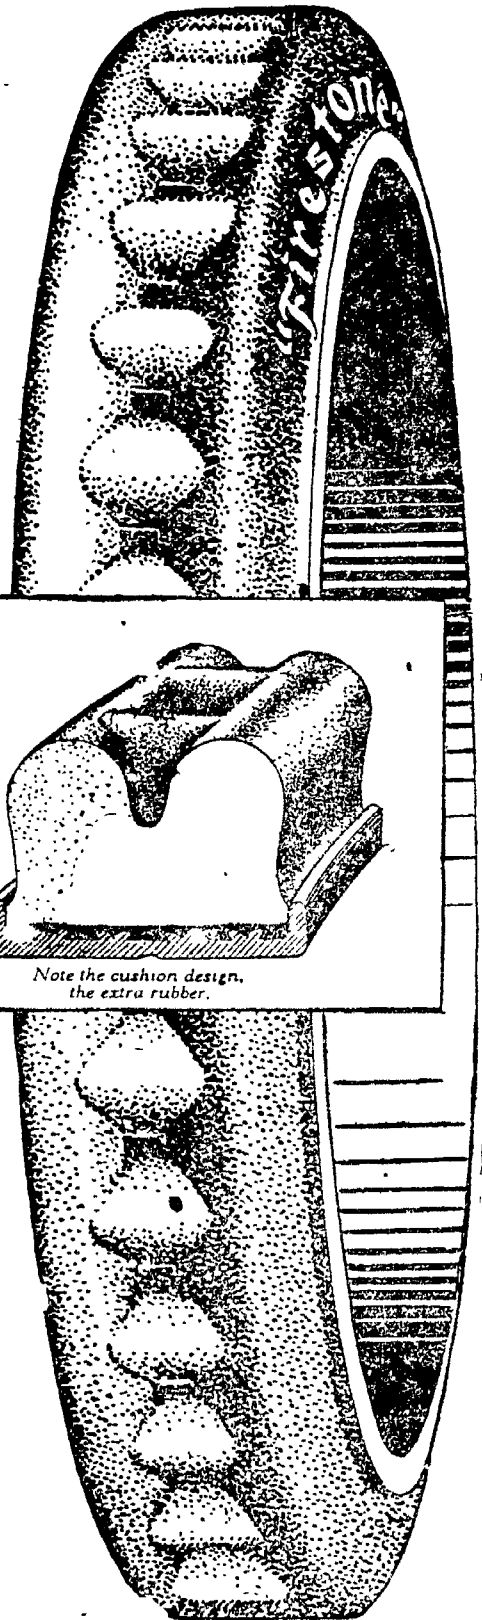

Any Truck Immediately Equipped

Firestone Cushion Tires are built to fit any S. A. E. base. No wheel changes necessary. The nearest Firestone truck tire dealer can apply them to your trucks and trailers without delay or added expense.

If you want resiliency plus extra-long wear, and if you want the practical economy of most miles per dollar, put on Firestone Cushion Tires. Made in all sizes.

Most Miles per Dollar

Note the cushion design, the extra rubber.

Old Clothes Week Will Soon Be Here

CLEVELAND, July 20.—An official "Old Clothes Week" will soon be organized in every city, town and hamlet in Ohio according to an announcement issued today by the Ohio Division of the Near East Relief.

The cast-off clothing collected will be shipped directly to the refugee camps established throughout Armenia and Syria by the Near East Relief, operating under a charter granted by Congress.

"Reports from the Near East show that winter will find many thousands of children and adults in this stricken country insufficiently clothed to face

its rigors," says Dr. Charles F. Thwing, president of Western Reserve University and chairman of the Near East Relief in Ohio.

"There are no doubt many people in this state who will not only be glad to help the Armenian people in this small way but will also be glad to get rid of some cast-off garments that have been hanging in their attics for a long time," says Dr. Thwing.

URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading
Druggist of Covington, Ky., Who Has Made
Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished.

It's really no joke for people who don't know about this simple recipe to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arcine—that's all you need and after you have mixed it with enough boiled water to make a pint gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

20th Century Meets Stone Age Face to Face

WINNIPEG, MAN., July 20. — The stone age and the twentieth century met face to face during the anniversary celebration of the Hudson's Bay Company.

Three airplanes rose above the wigwam encampment of the Indians at Lower Fort Garry. They skimmed the battlements of the old fur post; they dived headspins above the tepees; they soared upward until they became mere specks in the blue sky.

The Indians watched them closely with a startled interest their stolid faces failed to show. These men of the wilderness had never seen an airplane before.

GLASS HOUSE WINS

The Glass company defeated the Glove company team Monday evening on the Industrial league diamond by the score of 10 to 2 in a postponed game. The game was a loose affair and each team played out of form.

Cramblett, the glove makers' first slapper to take the mound, was driven to the dugout in the fore part of the game.

The Glass company got away in the lead with a number of runs the white-washed mittens stitchers were unable to overcome. The Glove Company team was shut out until their half of the seventh inning, when they drove over two runs.

The batteries were: Glove company Cramblett, Holsky and Hershman; Glass Co.—Mullford, Payne and Mohler.

Great Negro Exodus Seen In Georgia Census

ALBANY, GA., July 20. — The seriousness of the negro migration from South Georgia is beginning to be visualized here as the returns from the 1920 census are published. Figures on Quitman and Clay counties show the former has lost more than 25 per cent of its population in ten years and the latter 15 per cent. It is known that no serious emigration of the white population has occurred in the last decade, and the only explanation is found in negroes leaving in large numbers.

Spurious Note Makers Rounded Up By U. S.

WASHINGTON, D. C., July 19. — Many arrests of counterfeiters have been made by the Secret Service Bureau recently, according to Chief W. H. Moran.

Groups making spurious currency were taken into custody at Detroit, New York, Bridgeport, Conn.; Lowell, Mass., and Scranton, Pa. It was started. They were making bills of \$5, \$10 and \$20 denominations, and those working at Lowell and Scranton were also making \$50 Federal notes. A man arrested in Pittsburgh is suspected of having made and circulated a considerable number of \$100 notes.

A peculiar case developed in Chicago, where a man bathing at a Lake Michigan beach felt something sharp strike his toe. Upon examination it proved to be a plate for counterfeiting \$20 bills. With this plate as a clue secret service operatives subsequently discovered and arrested three men who for months had been experimenting with counterfeiters and who had just completed an excellent plate for making \$20 notes. They were arrested before any of the spurious currency was put in circulation and surrendered twelve counterfeit plates.

"Belled Buzzard" More Than Century Old Believed Dead

WAYCROSS, Ga., July 20. — The famous "belled buzzard" of south Georgia, known to be more than 100 years old is believed to be dead. The buzzard has a small sleighbell tied around its neck, said to have been placed there during the War of 1812. It has been seen in South Georgia counties at intervals for many years and was easily distinguished from its companions by its size and the bell around its neck. It was seen several weeks ago on the farm of W. H. Leach, Second Creek, West Virginia.

The famous buzzard has always been a follower of war carnage and is said to have been present at every battle of any size north of the equator. It has been seen as far south as Peru, although its summers were usually spent in the Southern States. During the Mexican trouble several years ago it spent two whole years at the border and witnessed every skirmish with the greasers. When the bird was last seen it was flying low with a number of other buzzards and it was especially noticed that the bird had gotten its beak fastened behind the leather strap which supported the bell and was unable to release itself. An attempt to release the head of the bird failed, as it would not allow a person to come within several yards of it.

Who Killed Cock Robin?

CONAN DOYLE should have thought of Elwell; the idea is entirely too good to be wasted on ordinary police headquarters and plainclothes men. Here is the real problem in manslaughter. A gambler of so many infidelities that an examination of his correspondence and check stubs leads to discovery of one intimacy after another is slain by a jealous woman or a jealous husband. The question is, which woman, or which husband; or, if none of these, at any rate, who?

The difficulties of Sherlock Holmes seem to have been in finding a clue. What would he have done had he found himself smothering in clues, drowning in them, and nobody to rescue him? The quest is more perplexing than locating a needle in a haystack; it is comparable to a search for the typical San Franciscan in San Francisco. By the time you have used the processes of induction and deduction on every suspect the murderer or murderess has had time to circumnavigate the earth. After all, Sherlock couldn't have used this case. His triumphs had to be confined to the brief compass of a short story or a novel, and the Elwell mystery would fill one of the tomes of the recording angel.

Nobody really cares much who put Elwell out of the way. He seems to have lived more in a short span than the majority would get around to if they had a thousand years to put in on this planet. He was a dangerous male to have around, at once attractive, promiscuous, and unprincipled. He didn't live up to the civilized rules, and his passing leaves no gap that the nation longs to have filled.

If we followed our instincts in the matter we should probably hunt up the man or woman who shot him for no other purpose than to pin some kind of a medal on his (or her) breast. But the hunt is the thing, not the quarry. The public looks on a fugitive from justice as a bloodhound thinks of the animal he is tracing. The mystery must be solved or we can't sleep at night. We are willing to let a thousand philosophic questions go unanswered, but "Who Killed Cock Robin?" stirs the slumbering heart of the world.

If we could harness the industry and intelligence and interest we lavish on the solution of a murder case on our fifty-seven or more variety of strikes, our more pressing political issues or the problem of how we are going to get our crops and coal transported we could make the country a much safer and saner place for all of us. But unless these things get similarly spectacular they don't worry us much. We have more capacity for gossip than for facts, however serious.

Winding Up A Political Party

THE Prohibition party will hold its national convention at Lincoln, Neb., July 21, and consider whether, the eighteenth amendment having been adopted since its last gathering, it is worth while to continue its organization longer as a party.

It originated about the time of the so-called "liquor crusade" that began in Ohio, and whose chief feature was the invasion of saloons by devout women to hold prayer meetings. Its first national ticket appeared on the ballot in 1872, under the name Temperance party, its nominee for President being James Black of Pennsylvania, and for Vice President the Rev. John Russell of Michigan, called by some the father of the party. It then polled 5608 votes and four years later appeared as the Prohibition party, a name never absent since from the election returns; and its vote rose to 9522.

Its ten nominees under the present name have been Green Clay Smith of Kentucky, Neal Dow of Maine, John P. St. John, of Kansas, Clinton P. Fisk of New Jersey, John Bidwell of California, Joshua Levering of Maryland, John F. Woolley of Illinois, Sila C. Swallow of Pennsylvania, Eugene W. Claflin of Arizona, who was nominated twice, and J. Frank Hanly of Indiana. Its greatest vote was polled in 1892—264,133—which four years ago had fallen to 221,329.

When it began the liquor power was dominant, the saloon almost unregulated, the evils of intoxicants omnipresent. After 48 years it sees America converted into an arid zone—thru the action of the great parties. The Prohibition party's force was chiefly a moral force. With a political organization it was a political force only in exceptional times and places—when by drawing to itself voters in close areas it compelled the older parties to act. With the beginning of local option 25 years ago its decline started, and the time has now come for its leaders to decide whether or not to wind up its affairs.

New York Day-By-Day

By O. O. McINTYRE

NEW YORK, July 20.—In my neighborhood is one of those gloomy stationery stores without which no New York block is complete. The windows are all alike—unartistically filled with rubber stamps, fortune telling books, pencils, bottles of ink, puzzle games and a jumble-jumble of nothingness.

It is run by three brothers and one confided to me the other day that they had not spoken to each other except on business in five years. Yet they clink together each afraid to cut loose for himself under an L station they have a hut from which they

sell the latest editions.

Queer telephone messages led me to believe that among other things they accept divers wages on horse races. That seems to be the main support of the stationery stores. But the character of the clientele is what interests me more and so I stood for a half hour at the counter apparently reading from a newly purchased magazine.

First came a woman clad in a loose wrapper with a silken shawl thrown about her shoulders and her feet dragging loose sandals. It was evident that she lived upstairs and that her mate was delayed. She wanted to while away the dragging hours so she bought a zippy paper back by

Next came a young man who confided that he had just lost his job. The boss always had it in for him. He feared he would supplant him. His room rent was \$16 and it was a tough game living in New York. He went out with a copy of "Every Man a King."

Then came a truckman with his

WALT MASON OUR LITTLE JOBS

Some jobs are worse than writing verse, and some are more enchanting. I'd rather play a harp all day than be a statesman ranting. For office high some men will fry in beastly summer weather, and thresh old themes and hopjot dreams, where reubens get together I wouldn't speak six times a week to be a blooming seraph. I'd rather sing than be a king, or coroner, or sheriff. Let others rise, "moath burning skies, our sacred bulwarks guarding, I've no desire to seek my lyre, to be a Warren Harding. The statesmen scrap and fuss and yap, and Gilbert jumps on Billy, while in the shade I drink limeade, and knock the timber silly. My record sleeps and no one weeps over names I have committed; the country reels when statesmen's sins are to news columns fitted. Some jobs are sick and span and spick, compared with writing sonnets, but oh, the voice of statesmen know when bees are in their bonnets! I do not sigh for Cato, high, I wish no White House laurel. I'd rather write my rhyme to night, and spring an ancient moral.

ABE MARTIN

After a statesman gets too big for the Vice-Presidency and too little for the Presidency they ain't much left for him. What we've allus wanted to know is how a feller gets a hold of money after he marries a rich girl.

motor racing at the curb. He bought a form sheet of the next day's entries. He smelled of onions and honest sweat and his voice was guttural and his shirt thrown open at the collar revealed a massive hairy chest.

Others who came were a little boy after a bottle of red ink; a bootblack next door who bought a Night Edi-

tion and turned quickly to the market page; two girls who wanted to use the phone and swore softly when they couldn't get home, a small shopkeeper with his two dogs on a leash with the news that an auto had just upset and was burning up on Broadway.

Then one of the brothers looked at me questioningly, yawned and began to get out a half shutter that fitted into the front window. Another brother who presided at the L hut dropped in, put a bag of money on the counter without comment and departed.

Oyster Bay is one of the most beautiful spots around New York and perhaps the best known because the Roosevelts live there and too because it has been the meeting place of many notables. It is a town that has a lot of civic pride. In two of the gable ends of the town hall the brown stucco covering has been set with oyster shells, the nearly inside faces turned outward. The effect is odd and pleasing and as appropriate and natural as the use of the acanthus leaf in ancient Corinthian decorations.

HUNDREDS OF WOMEN nowadays are entering the professions or business world and go to work day after day in bad health, afflicted with some female ailment, dragging one foot wearily after the other, working with an eye on the clock, and wishing for closing time to come.

Women in this condition should take Lydia E. Pinkham's Vegetable Compound, made from roots and herbs. It has brought health and happiness to more women in America than any other remedy. Give it a trial.

Gets Pleasant Surprise

"About 6 months ago my father was very sick with his stomach, which had been troubling him for several years. Three doctors said he had cancer and one said it was gall stones—all agreed an operation was necessary, but on account of his age I was afraid to risk it. I told a friend about it who said his wife had been through the same trouble and had been cured by taking Mayr's Wonderful Remedy. I at once bought a bottle for father and he is now as strong as a horse and can eat more ham and corn than any 3 men." It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at Wimmer Arnold Drug Co., and druggists everywhere.

Every body will like it.

SEVERE CASE OF ECZEMA OVERCOME

The Eruptions Covered Her Body, Arms, Hands, Limbs and Showed on Her Face; Red, Sore and the Itching Almost Unbearable; Unable to do Her Housekeeping.

She and Her Husband Both Declare That Since Taking Dr. Geo. Heile's Blood Purifier and System Builder, Her Skin Healed Up Completely.

Every person who is afflicted with that terrible disease, Eczema, or any of the closely resembling symptoms, such as boils, pimples, blotches, liver spots or acne, should read every word of this remarkable story. It is the case of Mrs. Martha Figley, wife of G. J. Figley, residing on Route 4, Crown Point, near Dayton, Ohio. Mrs. Figley is connected at the Maxwell Motor Co. plant and is highly esteemed. He says: "My wife had eczema practically covering her entire body. It was on her hands, arms, limbs, body, feet and showed on her face also. She was so badly afflicted that she was unable to attend to the house keeping but depended upon her mother's assistance. She has been treated by various physicians, used numerous lotions, salves and other treatments, without any improvement. We read where Dr. Geo. Heile overcame Eczema for another party, so we decided to give it a trial. She has taken four bottles of Dr. Geo. Heile's and it is astonishing to see how the eruption has been cleared away. We are simply wild with joy for the great relief she has obtained. Nothing is too good for us to say about Dr. Geo. Heile's. All good druggists now sell Dr. Geo. Heile's and it is highly recommended in Coshocton by Page & Lorenz drug store."

THIN PEOPLE SHOULD TAKE PHOSPHATE

Says nothing like plain Argo-Phosphate to put on flesh, solid, stay there flesh and muscle and increase strength, vim, vigor and nerve force.

Physicians claim there is nothing that will increase weight, strength and endurance like organic phosphate commonly known by druggists as argo-phosphate. It is inexpensive and is sold by all leading druggists everywhere under a guarantee to give satisfaction or money refunded. Weakness and thinness are usually due to starved nervous conditions.

Our bodies need more phosphates than are contained in the foods we eat.

If you wish a more rounded figure and plump well-developed arms, neck and bust in place of hollows, you should simply take plain argo-phosphate as it builds up and restores run-down nervous conditions by phosphatizing the system. It transforms the appearance and an increase in weight is often times quickly produced.

The increase in weight also aids in improving the general health. Sleeplessness, nervousness, lack of energy and ambition quickly disappear.

Pale cheeks are changed to rosy ones and dull eyes become bright.

Miss Lena Brown of Atlanta, Ga., who only weighed 90 pounds reports that she gained 10 pounds in two weeks time and says argo-phosphate has made a different person of her and she has never felt better in her life.

SPECIAL NOTICE:—Owing to the fact that so many physicians and druggists are recommending argo-phosphate for relieving all nervous, worn-out debilitated conditions and the unusually large sale for argo-phosphate there will be found in the market numerous substitutes for the genuine article. All imitations are inferior preparations and owing to its unusual flesh producing qualities it should not be used by any one unless they desire to put on flesh and increase in weight.

Mr. and Mrs. J. J. Scarborough of Plainfield left Monday for Bellingham Wash., for a month's visit with their daughter, Mrs. Mary New.

Announcement of the marriage of Miss Veala Wells, daughter of Mr. and Mrs. Hiram Wells, Denman-av., to Martin R. Statler of Mt. Vernon comes as a surprise to the bride's many friends in this city. The wedding was solemnized Saturday evening by Rev. W. M. Hart at his home on Orchard-st., the ring ceremony being used. They were unattended.

The bride was graduated from Coshocton high school with the class of 1917 and for the past three years she has been employed as stenographer in the general sales department of the American Art Works.

Mr. Statler was formerly of Iola, Kan., but for the past several years he was employed as mail dispatcher in the Mt. Vernon post office. He served in the U. S. army for more than a year and saw service with the 91st division.

After Angus' 7 Mr. and Mrs. Statler will be at home at 400 Braddock-st., Mt. Vernon.

Carlos Uhl of Orville is spending a few days here at the home of his cousin, Harold Brink, Elm-st.

Miss Catherine McDowell, 655 Locust-st., and Miss Genevieve McDowell, 242 north Sixth-st., will go to Akron Wednesday to be the guests of Miss Margaret Harvey.

Boston Is Dryest City In The U. S.

WASHINGTON, July 20.—Boston is the dryest city in the United States according to Federal Prohibition Commissioner Kramer. New York is the wettest.

"Probably there are 700 places in New York where the prohibition law is being violated," said Kramer. "This shows a big success for the prohibition law, however. New York used to have 11,000 saloons. We're doing our best in New York, but it's a long job. "Boston," said Kramer, "is probably as near perfect 100 per cent dry city as there is in the United States."

Kramer declared he is much pleased with prohibition enforcement results so far but he admitted there is a lot of room for progress.

"I do not deny," he said, "that the law is being violated in very many localities, especially in large cities like New York and Chicago." This was perhaps to have been expected.

DEATH IS DUE TO A STRANGE CAUSE

COLUMBUS, July 20.—An unusual cause is said to have been responsible for the death here of Mrs. Emery

Bradford. Death occurred after 10 days of unconsciousness, due to infection which started from her teeth. It is claimed that when a tooth was extracted blood trickled down her throat into her lungs where it formed a clot which caused an abscess.

FACTIONAL WARFARE IN CHINA GOES ON

LONDON, July 19.—A committee of councils from Tien Tsin has entered into negotiations with Chinese troops at Peit Sang Tao, six miles from Tien Tsin in an effort to prevent fighting in Tien Tsin which would endanger the lives of foreigners, according to

an Exchange Telegraph dispatch from Tien Tsin today. The committee invoked provisions of the old Boxer protocol and requested that Tien Tsin be regarded as a non-combatant area.

The Anfu troops under General Tuan Chi Jui captured Yangtsun, the Chinese troops under General Wu Pei Fu then began a retreat toward Tien Tsin which led to the action of the committee.

The fighting is between the armies supporting two powerful political factions of northern China.

EIGHT KILLED IN EXPLOSION

PITTSBURGH, July 19.—Eight men were killed in an explosion of gas in the coal mine of the Union Collieries Company at Renton, near here today. A spark from an electric switch is believed to have ignited the gas. All the dead are foreigners.

Li'l Do-Daddies Bawled and Squawled, Papa Couldn't Help It

NEWARK, Ohio, July 19.—A baby bawled and squawled, rolled down the main street, with a frowning papa pushing and pleading with his "li'l do-daddies" to cease.

The infant coach brought up to a halt before a drug store, which papa entered to use a phone.

A kind-hearted policeman, noticing numerous milk bottles within the carriage, opened one in an effort to bring peace to the neighborhood.

Inside he found "hooch."

The outside of the bottles was painted white.

When papa came out he was taken with his "li'l do-daddies" to jail.

Birth Note

A baby son was born to Mr. and Mrs. C. O. Hershman, 219 Elm-st., Sunday morning.

BUG-ODOGY What do you call them?

Bedbug (Cimex lectularius). The origin of the name bedbug is unknown, but it is supposed to be naturally suggested as it is descriptive. There are many local names for these parasites, as for instance, around Boston they are called "Chibbees," from Baltimore comes the name "Mahogany Flat," in New York they are styled as "Red Coats," around Pittsburgh they are called "Pesky Devils," in Cincinnati and the South "Night-riders," in St. Louis and Chicago district "Trisnon Kamblers," the great West "Piercing." The old saying, "The bedbug has no teeth, but they get there just the same," is correct. Instead of teeth they possess a piercing and sucking beak to draw and rob you of your blood for their own body. Bedbugs, no matter what you may call them, or where they come from, science has found a way to rid them if you will use faithfully the new chemical Pesky Devils Quinua "P. D. Q." A 35c package makes one quart, enough to kill a million bedbugs, roaches, fleas, ants or cockroaches, and their eggs as well. P. D. Q. will not injure bedding and each package contains a patent sprayer to enable you to get them in the hard-to-get-at places. Impossible for Pesky Devils to exist where P. D. Q. is used.

BRITISH LABORITES DEMAND RECALL OF TROOPS IN IRELAND

LONDON, July 19.—Contrary to general expectation and to the obvious surprise of many delegates the special trade union congress in London today adopted by a large majority the following "down tools" resolution of the Miners' Federation:

"That this congress protests against British military domination of Ireland and demands the withdrawal of all British troops from that country, and demands cessation of the production of munitions of war destined to be used against Ireland and Russia."

"And in case the government refuses these demands we recommend a general down tools policy, and call on all trade unions here represented to carry out this policy, each according to its own constitution, by taking a ballot of its members or otherwise."

The voting was as follows: For the resolution 2,760,000; against, 1,636,000; majority, 1,124,000. The announcement was greeted with loud cheers. The vote came at the end of a long and perplexing debate which was largely concerned with the process of cancelling amendments to the resolution of the National Union of Railway Men.

This resolution, which was carried at an earlier stage by 1,953,000 votes to 1,759,000, expressed the opinion that the Irish situation was due primarily to the denial of the constitutional claims of the Irish people and to failure to deal with those who first supported open rebellion.

It further called for a truce, the withdrawal of the army of occupation and the establishment forthwith of an Irish parliament endowed with full dominion powers, with adequate protection for the interests of minorities. "This resolution evoked only lukewarm support, because in the view of many delegates it would be regarded merely as an expression of pious opinion. The various amendments designed to strengthen it were, however, rejected in favor of the miners' proposal."

YANKEE RESTORES CROPS TO FRANCE

PARIS, July 19.—American genius in the guise of a practical farmer is responsible for the extensive reclamation work going on in the great battlefields of northern France. More than 60,000 acres of land reported devoid of fertility have been improved for crops and the French department of agriculture has voiced appreciation of the work accomplished by the American committee for devastated France.

Hal B. Fullerton, educational director in agriculture for the Long Island railroad, who was sent last April to disprove the theories of French farming experts, made a complete report to the committee yesterday in the studio of Miss Anne Morgan, No. 4 West 46th-st. Mr. Fullerton said that as a result of his demonstrations thousands of peasants are returning to the sites of their demolished homes and are growing crops on soil which the French government had planned to abandon.

"For many years authorities believed subsoil infertile," said Mr. Fullerton. "When I arrived in France reports had been made that the soil of the battlefields was 200 degrees below zero in the standards for judging fertility."

Members of the French department of agriculture accompanied me on a trip out to the battlefields and I pointed out clover and alfalfa growing at the bottom of trenches and shell holes. The government made new reports and brot peasants back from the south of France to rebuild this country."

Through the efforts of the committee American labor-saving farm machinery is supplanting the ancient hoe and pick mattocks with 18-inch handles, used by French peasants during a thousand years, said Mr. Fullerton. All the workers in the fields are less than 15 years of age or more than 45, as the few men of vigor left are working in factories.

"The cattle and milk cows which the Germans have turned over to the peasants under the peace treaty have been found to be infected with hoof and mouth disease," Mr. Fullerton continued. "I never knew there were so many midget bantam chickens in the world till I saw a German shipment of barnyard fowls. The agricultural implements turned over are monstrosities which can never be used."

"The French are being taxed to death. They are awaiting the money they are to be paid from the German indemnity, which never arrives. Unquestionably our failure to ratify the peace treaty has a great deal to do with the present pitiable situation."

"In France one of the most favorite topics of public discussion is the next war."

Not Related, but Good Pals, Anyway

MANCHESTER, N. H., July 19.—Altho, as far as known, the families of James M. Cox, Democratic nominee for president, and ex-Alderman Charles E. Cox, of this city, are not related, a strong friendship exists between the presidential nominee and Walter Cox, son of the ex-alderman and well-known horseman.

Walter Cox and Governor Cox have been friends for years, drawn together in part by their mutual love for a good horse.

Hot Days Trying On Elderly Folks

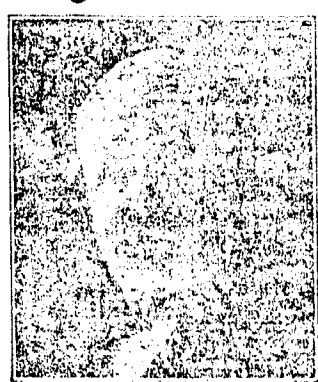

Sluggish, languid, constipated
feeling is quickly removed by
Dr. Caldwell's Syrup Pepsin

THOSE who are past the prime of life know the discomforts of hot weather. Exercise is tiring, and constant sitting around soon brings constipation. It is especially dangerous for elderly people to allow constipation to continue for it creates poisons in the system that may bring on a serious illness.

If you pass a single day without full and free elimination, do as so many thousands of elderly folks do and at once take a teaspoonful of Dr. Caldwell's Syrup Pepsin, and you will find prompt relief. It is only by doing this that you can be sure of feeling well. You must not trust constipation to correct itself.

Dr. Caldwell's Syrup Pepsin is particularly suited to elderly people as it is a combination of simple laxative herbs with pepsin that acts gently and without cramping. Unlike so many medicines, it can be used exclusively without fear.

FREE Millions of people of all ages suffer from occasional or chronic constipation. Let them send name and address to Dr. W. B. Caldwell, 672 Washington Street, Monticello, Ill., for a free sample bottle of his wonderful Syrup Pepsin. 8 million bottles were bought at drug stores last year, the largest sale in the world.

DR. W. B. CALDWELL
In his 82nd year

ing its effect, and it does not weaken. Mr. Levi North, of Antwerp, N. Y., like Dr. Caldwell himself is in his 82nd year, and he has used only Syrup Pepsin for the last ten years. He is clear and hearty, never has constipation, an ache or pain. No person of advancing years should be without Dr. Caldwell's Syrup Pepsin these summer days. Any druggist will sell it to you. It is economical.

WITH VIGOR ON THE
COL. HOUSE LETTER

(By A. O. HAYWARD)

MARION, July 19. A cabled state-
ment from Colonel E. M. House, at
London, one of the American peace
commissioners, that a preliminary
peace treaty could have been made
before Christmas, 1918, brot this
comment today from Senator Harding,
the Republican presidential nominee.
"We are beginning to understand
the mistakenly plighted relationship
of the United States to Europe just
in time to proceed to a referendum in-
telligently. The one representative
of this country, other than the pres-
ident, who best knew the whole situa-
tion at Paris, was Colonel House.
He tells us now in a cabled statement
from London, that the suggestion of
a preliminary peace treaty was made
very soon after the armistice and that
such a treaty could have been made
before Christmas of 1918."All along this has been the Repub-
lican conception of what ought to
have been done, but this is the first
official knowledge that Europe wished
such a procedure and was deterred
by us in expediting peace. The au-
thentic revelation is peculiarly inter-
esting at the moment when it is an-
nounced that the continuation of a
democratic administration means a
continuation of the foreign policy
which has so grievously disappointed
both European and American people."Colonel House's statement to which
Senator Harding referred was contain-
ed in a special cable from London,
July 12, to a Philadelphia newspaper.
In it the colonel said:"A suggestion was made in Paris
just after the armistice to proceed at
once to the making of a preliminary
treaty of peace with Germany, based
upon broad, general lines and con-
cerning four subjects—army, navy,
reparations and delineations of bound-
aries."Boundaries need not have been ex-
act but should have been so drawn as
to give Germany the assurance that
her loss of territory should not be
greater than indicated. Such a treaty
could have been made by Christmas of
1918 and would have been not only
the usual but the obvious thing to do.
There was at that time facing Ger-
many the entire allied army, militant
and flushed with victory, and there
would have been no delay or evasion
of terms."The next move might well have
been a general readjustment of inter-
national finances. England and our
selves being the wealthiest nations
and the largest creditors, could with
advantage to us both have cancelled a
reasonable part of the indebtedness
owed by our allies and charged it off
as part of our war expenditures. For
a part of our remaining debts we
might have got a portion of the repa-
ration fund. If held against our allies,
it would have been of benefit to us
as well as to the others. What in-
debtedness we would then have held
against our allies would have been
good and interest on the principal
could even now have been paid, there-
by reducing the burden of our taxes.
We should also have profited by the
improved economic and social condi-
tions of Europe and our trade would
have been greatly stimulated."Rev. Dr. Thomas H. McAfee, pastor
of Trinity Baptist church of which
Senator Harding is a trustee, was
stricken with paralysis last night. It
is reported this morning that he will
recover. Dr. McAfee is a personal
friend of Senator Harding and was to
have delivered the invocation at the
ceremonies, attending the notification
next Thursday of Senator Harding of
his nomination by the Republicans for
the presidency. The senator has made
many inquiries as to the condition of
Dr. McAfee throughout the day.LOS ANGELES, Calif., July 20.—
Jack Johnson, negro pugilist, will sur-
render to Sheriff John C. Kline, of
Los Angeles county at San Diego to-
morrow night. It was stated here to-
day. Eighteen trunks of Johnson and
his wife are being inspected today by
customs officials as a preliminary.
Johnson will be brought to Los An-
geles, will leave Thursday for Chi-
cago to answer the Mann act charge
which caused him to become a fugi-
tive from justice about six years ago.BALTIMORE, July 20. — Ten per-
cent of the employees in the main-
tenance, equipment and clerical de-
partments of the Baltimore division
of the Pennsylvania railroad will
lose their jobs Wednesday.

Yo-ho, Ho! Ten Casks of Rum—Talk About Buried Treasure!

THE PAS. Man, July 20.—Rumors that ten casks of rum, 150 years old, are buried near Cumberland House, an old Hudson Bay Company fur post famous in early history, have caused more excitement than the gold strike at Athapusk Lake. Many prospectors have deferred their hunt for yellow metal to search for this liquid treasure.

French wood runners and trappers in the employ of the North West Company, then the great rival of the Hudson Bay Company, visited Cumberland House on their way toward the Athabasca region in the latter part of the eighteenth century. They had with them the casks of rum to be used in trading with Indians for furs. The Hudson Bay Company claimed exclusive trapping rights in the country and disapproved the use of liquor in bartering with the natives. The Hudson Bay Company men blocked the passage of the French voyagers, through the territory and turned them back. Before they began their retreat the Frenchmen buried their rum. They finally reached Fort Garry, now Winnipeg. Their diary of their adventurous journey recently was found and it told of the burial of the liquor. It did not indicate, however, the exact spot at which the cache was made.

Wanted No Spook, but an Abducted Infant

LAUREL, MD., July 20.—Charles Green, a colored farmer, and his wife, returning from church via a short cut thru Laurel Hill Cemetery to avoid an electrical storm, stumbled in the darkness over a paper-wrapped bundle which emitted a shrill yell.

Upon pausing for breath a few thousand yards further down the path, the couple reflected that the cry had been somewhat too lusty for the ordinary graveyard frequenting spook and, after some debate, they returned to the spot.

There they found two-year-old Melba Bailey, whose abduction from her home several hours earlier had aroused the neighborhood. The child, who was unharmed, was returned to her parents.

SHAMROCK

(Continued From Page One)

north of northwest breezes, moderate and slightly fresh.

The fresh green challenger was scheduled to go into today's race, starting at 11 o'clock, the usual hour with the same skipper and crew that has handled her to date. Sir Thomas Lipton's decision to keep Captain William P. Burton at the wheel of the green sloop came as a surprise in the face of hurried and even worried conferences between the Irish baronet and his closest advisers. What may occur to the personnel of the Shamrock's crew if Resolute wins today and Charles Francis Adams demonstrates his "skipping" superiority once more is a matter for conjecture. It is the general belief that Sir Thomas will make a change unless the skipper of the Shamrock shows to better advantage than he has in the races sailed so far.

Resolute was a prime factor in the betting today. She had many backers at odds of 8 to 5 and 7 to 5. Several enthusiasts made wagers that Shamrock will not win another race.

The contest today is scheduled to be sailed over a triangular course of thirty miles and if the promises of the weather forecaster hold out the second real race of the series will be decided by sundown.

The usual armada of pleasure and excursion craft of all kinds steamed out to the "hook" for today's race. Enthusiasm among devotees of yachting is hotter than ever and the number of spectators who were expected to witness the race today was even greater than on Saturday. Resolute was scheduled to enjoy a greater handicap today as the result of a change in the sail area of the challenger. Sir Thomas notified the regatta committee of the New York yacht club that he desired to use a larger club top sail and at the conclusion of taking measurements of this "flapper" it was announced that the time allowance had been changed to seven minutes and one second.

L. M. Anderson, 108 Coe av. left Monday for a business trip to Detroit, Mich., and Cleveland. He was accompanied by Mrs. Anderson.

Lowery McClure, Sycamore st. went to Cleveland this morning on business.

CHOKES TO DEATH ON TOY BALLOON

Fox Trot Prescribed For Tuberculosis By Scientist

DETROIT, MICH., July 20.—Celebrating the birthday of a companion, fourteen children suddenly turned to grieving when one of their number, Jack C. Prange, six years old, choked to death on the mouthpiece of a toy balloon.

The balloons were given as favors at the party.

Physicians were called as the boy gasped for breath, but Jack died before they arrived.

Plenty Of Flowers; But No Money

AKRON, July 20.—An investigation is being conducted by the Summit-county commissioners with a view to determining whether the county is being imposed upon. Attendants at the city hospital declared that an alleged indigent patient has been receiving more flowers, including expensive poinsettias, than any other patient in that hospital. The county is being asked to pay the cost of caring for this patient.

If the commissioners' probe reveals that "close" relatives are buying the flowers for the patient, these relatives will be asked to pay the hospital bill.

Only One Senator

BU'CYRUS, July 20.—Only one senator will be elected this fall from the 13-21st state senatorial district, comprising Crawford, Hardin, Logan, Marion, Seneca, Union and Wyandot-counties. This information comes direct from Secretary of State Smith to Edward Eckelberry, clerk of the Crawford-county election board. Secretary Smith stated that he was misinformed when he sent out the first information that two senators were to be elected from this district.

Cars For Ohio

COLUMBUS, July 20.—The car shortage will not interfere with the harvesting of wheat in Ohio, except in a few localities. This is the statement made by Murray D. Lincoln, secretary of the Ohio farm bureau.

Secretary Lincoln said that he has information showing that farmers in 50 of Ohio's 88 counties are preparing to store wheat and will not need the number of cars anticipated.
